Flygt Ready kits KEY FEATURES

Ready to buy, easy to use

Xylem offers ready-to-buy, easy-to-use spare part kits for Ready pumps. Each kit contains all the parts that need to be changed due to normal wear during a particular type of repair, as well as an easy-to-follow instruction sheet.

Simplified handling

Having all the required parts in one box simplifies storage and physical handling. One part number makes ordering easier as well.

Time savings

Buying parts in kits reduces administration and eliminates the risk of having to wait for delivery of individual parts when you need them at the same time. Simplified logistics also saves time.

Cost-efficient repairs

Handling and administration costs decrease when all parts are delivered in one package.

Diffusor kit including diffusor, hexagon head screws, plain washers, barrel nuts and a mounting instruction.

Fast delivery

When you need service kits, you want them fast. All Ready kits are stocked in our distribution centers for direct delivery.

High-quality parts

Xylem guarantees that all parts in a Flygt Ready kit are Genuine Flygt Parts. Our parts are specifically developed or selected to work perfectly in Flygt products and maximize the life of our products.

Easy-to-follow instruction sheet

Each kit is delivered with an instruction sheet that makes it easy to use.

Cable kits

Our cable kits include all parts needed to simplify cable replacement and ensure safe and reliable sealing.

Impeller kit including torque flow impeller, plain washer, hexagon socket head screw and a mounting instruction.

Seal kit including inner mechanical seal, outer seal kit, retaining ring and a mounting instruction.

The following Ready kit types are available:
