STANDARD CHARLOTTE "G" MODEL  
GREASE PRODUCTION MILL

### The Superior Colloid Mill

Around the world, there are many ways to say grease. Throughout the world, there is only one word you need to know for state of the art grease processing, the CHARLOTTE®. Since 1924, CHARLOTTE®. COLLOID GREASE MILLS have earned and maintained a respected international position in the grease industry.

#### LUBRICATING GREASES

The most successful and proven, the Charlotte® Colloid Mill, is used for processing the full range of NLGI and ILMA type lubricating greases including; Lithium, Sodium, and Calcium soap base and other non-soap greases.

Designed to perform and produce outstanding results continuously, the Charlotte® is considered the standard by which excellence is measured.

### Charlotte® Mills Fit Your Needs

Charlotte Colloid Mills are available in the size necessary to do the job quickly and efficiently. From small pilot plant models to large production units handling over 2400 gallons per hour, Charlotte can satisfy all of your Colloid Mill requirements. All model capacities are conservatively estimated from minimum to maximum.

### Superior Design and Construction

Manufactured utilizing skilled craftsmanship and high performance materials. Electric motors are hostile duty premium energy efficient world motors. The intelligent rugged design of all Charlotte Mills require nominal care for years of worry free operation. The Charlotte operates virtually maintenance free. Clean in place. Saves time, saves money.
