experience across
all industries, you
can rely on Kelair

Committed to providing solutions

Since we were established in 1975, Kelair Pumps Australia has been committed to providing solutions, technology and innovations based pumping equipment for all sectors of industry.

We have taken pride in the relentless pursuit of product training and staff development to support our array of world renowned pumping products. This ensures that our clients are provided with the best, most reliable and cost-effective pumps possible to meet their specific tailored needs.

This reputation has made Kelair Pumps Australia the pumping solutions provider of choice across all industry sectors.

KELAIR PUMPS AUSTRALIA - 1300 789 466 - www.kelairpumps.com.au

When Pump Knowledge Matters

Our Mission

Kelair Pumps Australia's mission is to provide our clients with a range of world renowned, high quality products supported by knowledgeable staff. We take pride in our pump knowledge and 'When Pump Knowledge Matters', our staff are second to none.

Our Vision

To become the natural hub between all facets of industry and the world's leading fluid handling equipment manufacturers.

About Us

Kelair Pumps Australia is a member of the AxFlow Group, the Fluids Handling Solutions business group within Axel Johnson International, and employs over 50 people nationally. With our head office in Sydney and interstate branches located in Launceston, Melbourne, Brisbane, Mackay and Perth.

Full support from concept to completion.

DESIGN & SELECTION

Using the latest 3D design software, our team of accomplished engineers work with our clients to provide solutions which meet and exceed industry demands.

PROJECT MANAGEMENT

With over 40 years history in the pump industry we have a vast amount of project management experience across a wide range of industry sectors and civil projects.

- We provide contract management including suppliers and subcontractors, using the latest project management systems
- Documentation management
- Witnessed and unwitnessed testing at third party or our own test facilities
- Fully managed installation services
- Commissioning and fault finding

MANUFACTURE

Our dedicated workshops and skilled trades people offer a range of manufacturing, fabricating, machining and engineering services to our clients. We focus on packaged turnkey pumping equipment for all sectors of industry.

STATE OF THE ART TESTING FACILITIES

We build and test all pumps to ensure they perform to specification in our specialised test facility.

- Testing to AS/ISO 9906:2018
- 185kW inverter allowing to test varying speeds
- Flow up to 400 L/s
- Pressures up to 2000 kPa

INSTALLATION & COMMISSIONING

We provide a diverse range of infield capabilities – which includes teams of skilled tradespeople, project engineers and project managers. We are able to install and commission all types of projects, ensuring each job is completed to comply with the clients specific project standards and requirements.

Our experienced site services team ensure proper installation and operation of the equipment in-situ:

- Comprehensive pre delivery site inspection
- Pre-delivery pump performance tests
- Laser alignment of pump sets
- Correct set-up, start and logging of operational characteristics
- On site performance verification
- Onsite training of maintenance operatives

SERVICING

Our Service division is fully equipped to respond to any type of service call. We have a national fleet offering a range of specialised services including maintenance and repairs on all makes and models of pumps and control circuits.

When you choose Kelair Pumps for your pump service and repairs, we will earn your confidence through our personal, professional, technical support and our quality repair turnaround.

QUALITY PRODUCTS & BRANDS

Kelair Pumps comprises of highly qualified tradespeople with diverse industry experience and expertise. We have a comprehensive range from some of the world's leading brand pumps and have developed a strong network of suppliers and products we trust delivering the highest standards, which enable us to find the right solution for our clients in any industry.

Past Projects

CLIENT	PROJECT	SCOPE OF SUPPLY	YEAR
AG Coombs	Aurecon Project	26 x Grundfos NBG Series on bases	2021
BSA	Grosvenor Place, Sydney CBD	Seven x all stainless steel ISO5199 pumps handling 20 Bar suction pressure for cooling tower	2021
Dialog Services	Vopak B4A Bulk Fuel Terminal Expansion, Botany	Two x 250kW Goulds ANSI standard pumps for product loading of various fuels	2021
Doral Mineral Sands	Yalyalup Mine	185kW auto prime centrifugal pumpset	2021
FMG	Iron Bridge	Three x 40Ft container fire pumps	2021
FMG	IB Operations	40Ft Containerised pumpset with dual diesel and electric units and 150mm manifold	2021
Wilmar Bioethanol Australia Pty Ltd	Sarina Ethanol Distillery	700kL fire water storage tank	2021
Manildra	Stillage MVR Upgrade	Eight x Goulds 3196 process pumps, evaporative circulating pumps	2021
Penrite Oils	Perth	Dual diesel pump set with 170kW engine	2021
Safety DFire Services	Manoah Homes	Single diesel residential pumpset	2021
UGL	Bulwer Island Fire Pump Upgrade Project	AS2941 complete fire pump set with split case pump	2021
Gordon Brothers	Dugald River Project/MMG Mine & Fosterville Gold Mine	Grundfos chilled water pumps	2021/ 2020
Abco Water PVT Ltd	Newmont Tanami	Dual diesel/electric hydrant pumpset	2020
DRA / G & S Engineering	Rio Tinto - WA	Diesel/electric fire pumpset	2020
Firesafe Systems PVT Ltd	Catalyst Apartments	Dual diesel/electric hydrant pumpset	2020
Fitout Fire (WA) P/L	Commonwealth Law Courts	Dual diesel/electric sprinkler pumpset	2020
GR Engineering	Saracen Carosue Project	Supply of process pumps	2020
Merdeka Copper Gold	Pt Batutua Tembaga Raya	185kW belt driven centrifugal pumpsets	2020
Merdeka Copper Gold	Pt Bumi Suksesindo - Construction & Upgrade	Process centrifugal pumpsets	2020/ 2019/ 2018
Outotec-Metso	Anglo Gold Ashanti	Process centrifugal pumpsets	2020
Incitec Pivot / Dyno Nobel	Apac Fuels at Moranbah & Port Hedland sites	Supply of Viking gear pumps with hazardous motors for fuels/ oils/ emulsifiers/viscous chemicals	2019
Cross Yarra Partnership	Central CBD Tunnel Project	Grundfos NBG hydro dual booster pump set complete with control panel	2019
Downer Engineering	Kestrel North Coal Mine	Supply of fire and washdown water pump package	2019
Gordon Brothers	St Barbra Mine	Grundfos pumps	2019
VSL	Aurora Project	Sandpiper pumps	2019
Anglo American	Grasstree Mine	Supply and installation of Blivet package sewage treatment plants with associated pump equipment	2018
Talison Lithium	Western Australia	Supply of Layne Bowler lineshaft turbine pumps and pioneer auto prime centrifugal pumpsets	2018
CTMT / Rio Tinto	Western Australia	Containerised diesel/electric fire pump set	2016
BHP Billiton	Chubb Fire And Security	40Ft Containerised pumpset with dual diesel units and 150mm and 200mm manifold	2013
Glencore Mt Isa Mines	Lady Loretta Mine	20Ft Containerised pumpset with dual diesel and electric units with dual manifold 100mm manifold	2012
Rio Tinto	Pilbara Iron	20Ft Containerised fire pumpset with dual diesel unit and 100mm and 150mm manifold	2012

Our Core Values

- ✓ Continuous improvement and innovation of our systems, processes and products.
- ✓ Long term sustainability of our own, our suppliers and our customers success.
- ✓ A culture of respect and professionalism with our staff, suppliers and valued customers.

Working With Safety

Workplace health and safety is an integral part of all our operations. It is at the core of our beliefs.

Formal certification of our systems demonstrates Kelair's commitment to quality, productivity and customer satisfaction. Kelair Pumps are certified and holders of the stringent ISO 45001: 2018 Health and Safety Management System Standard.

Environmental & Waste Management

We recognise the environmental impact of our business and therefore we are committed to operating in a manner that both complies with environmental legislation and minimises effects on the environment.

In particular, we have a strong commitment to the management and prevention of pollution being caused by our business activities.

Sustainability

Sustainability is about being here in the future and getting there responsibly. We belong to a strong family business dating back more than 140 years who look long-term. Together with our owners AxFlow and in turn Axel Johnson International, we have a clear strategy on how to drive sustainable operation and a concrete action plan.

- We work to optimise a resource-efficient, responsible, and sustainable operation.
- We target offering our clients the most energy-efficient solutions for their business.
- And we strive to be a good employer and a good citizen wherever we operate, nurturing diversity and promoting social responsibility.

“I’ve been impressed with all the pump systems supplied by Kelair. Their technical ability has helped in a number of situations to determine suitable solutions. They have a wealth of experience and fabricate a quality pump package. Customer service and technical support at its best. I can’t recommend them enough.”
