**CALL 1300 789 466**

**SERVICE  
AVAILABLE AT KELAIR PUMPS**

**WHEN PUMP  
KNOWLEDGE  
MATTERS**

## **Kelair Pumps Australia's Service Division is fully equipped to respond to any type of service call.**

- **REASSURANCE** You can be confident your pumps are working reliably and ensure you get maximum performance.
- **SAVE MONEY** Reduce your total lifetime maintenance and operation costs ensuring your pumps are working efficiently. You could also lower your insurance premiums with a scheduled maintenance plan.
- **BUDGET** Regular maintenance allows you to determine early on if your pump will require repairs and can minimise costly repairs, while also allowing you to forecast for a change out/replacement.
- **CONVENIENT** We come to you on site and service your pumps, or you can send them to one of our inhouse workshops.
- **PEACE OF MIND** Our highly qualified project managers, engineers and technicians ensure you can rely on Kelair to support you.
- **National Service Fleet**
- **Servicing all makes and models of pumps and control circuits**
- **Onsite or inhouse**
- **Problems resolved from 0.5kW up to 500kW**

We take pride in our pump knowledge and 'When Pump Knowledge Matters', our staff are second to none. You can rely on us to get your pumps and keep your pumps running.
